EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Hardaway on 1/5/06, who reserved the right to pursue the subject matter of claims cancelled by amendment in a divisional application.

2. The application has been amended as follows:

Please cancel claims 21 and 22.

Allowable Subject Matter

3. Claims 1-12 and 15-20 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The Examiner agrees with Applicant that the rejections under 35 U.S.C. 112 have been rendered moot in view of the amendments made to the claims as these rejections were with regard to language no longer present in the claims.

The Examiner considers the reference to Bruce, Jr. et al. (U.S. Patent No. 5,517,637) to be the closest art of record. Applicant has amended the claims such that the test vectors are generated without use of any boundary scan test program. The Examiner considers this to overcome Bruce, Jr. et al., who, unlike Applicant's claimed

and specified invention, uses a BSDL (Boundary Scan Description Language) file before generating the test vectors. An updated search has not yielded any new grounds of rejection.

Claims 21 and 22, previously restricted by original presentation, have been canceled by examiner's amendment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
